

OPERATION PHOENIX

**WHITEPAPER
VOL.1**

OPERATION PHOENIX

ABOUT US

For many of us Safemoon was our entry into crypto. We all spent countless hours shilling Safemoon on Twitter and watching our favorite YouTubers talk Safemoon. Unfortunately, for many holders the dream of Safemoon making them financially independent never came to fruition. The mission of Operation Phoenix is simple. To become what Safemoon should have been.

Operation Phoenix will be community driven, renounced contract, and the LP will be locked for years making it untouchable.

Operation Phoenix will not be owned by a CEO, instead by the community! Lets come together and make Operation Phoenix the Ecosystem of 2024!

OPERATION PHOENIX

BUT HOW?

The answer to that is simple. **DELIVER!** The founders have been working in the background to bring all the below utilities to life as fast as possible! Staking and our Sell-Less DEX are going to be live Day 1!

What Can be expected from Operation Phoenix?

- Staking
- Sell-Less DEX
- Launchpad
- NFT Launchpad
- PrePaid Debit Card
- Merch
- Wallet
- Blockchain

OPERATION PHOENIX

STAKING

Staking will be live day 1! Operation Phoenix feels reflections are outdated and only the top holders benefit.

You will have 2 options:

- 30 day stake for a 50% APY
- 14 day stake for a 10% APY

MERCH

The Merch shop will sell all things Crypto branded: Operation Phoenix, Bitcoin, ETH, Dogecoin, Etc

Merch as a Service: Other crypto projects will be allowed with approval to sell on the Operation Phoenix Merch shop and will receive 50% of profits!

OPERATION PHOENIX

SELL-LESS DEX "PHOENIX SWAP"

What is a Sell-Less DEX? Lets start by explaining how a regular DEX works. When a token has a tax, every time that token is traded the tax part of that trade is stored in the contract. Once the tokens reach a certain threshold the contract has to sell itself to collect the tax thus putting a big sell on the chart.

With Phoenix Swap taxes are broken down at the time of purchase and sent to the appropriate wallet. Thus the contract never has to sell it self. Saving the chart from all those red lines caused by contract sells. taxes are broken down at the time of purchase and sent to the appropriate wallet. Thus the contract never has to sell it self. Saving the chart from all those red lines caused by contract sells.

Example: You launch a token on Phoenix Swap and it has a 10% tax. Every 1 Million in volume there will be 100K worth of contract sells on the chart. Hurting both the chart and community morale. With the Phoenix DEX, contract sells become a thing of the past. and it has a 10% tax. Every 1 Million in volume there will be 100K worth of contract sells on the chart. Hurting both the chart and community morale. With the Phoenix DEX, contract sells become a thing of the past.

OPERATION PHOENIX

LAUNCHPAD

The Launchpad will allow projects to launch with the full support of Operation Phoenix.

You will have access to:

- Operation Phoenix Community
- 35 Plus YouTubers
- AMA's & Calls
- CEX listing
- KYC & Audit

***Fee's are associated and services require a KYC. 15% raised on each campaign will come back to Operation Phoenix.**

OPERATION PHOENIX

NFT LAUNCHPAD

Just like the Launchpad the NFT Marketplace will give all approved projects access to the below:

- **Operation Phoenix Community**
- **35 Plus YouTubers**
- **AMA's & Calls**

Operation Phoenix will also launch its own line of NFT's paying out passive income to all holders of the NFT's. NFT Holder will receive portions of the revenue from the ecosystem. Exact numbers will be broken down before NFT's are up for sale.

OPERATION PHOENIX

THE WALLET

Operation Phoenix Wallet will be a multi-chain wallet and truly decentralized. This is in the earlier stages of development. More details will be released.

THE BLOCKCHAIN

Operation Phoenix will be a layer 1 blockchain processing and finalizing transactions on the Phoenix blockchain. Like the wallet this is in the early stages of development and more details will be released as we approach test net.

*The teams that will build both the wallet and blockchain have been chosen, but the wallet and blockchain are not in active development like all of the above.

*Leaving the option open for changes to the blockchain as we develop. Layer 2 is also possible.

OPERATION PHOENIX

SUPPLY & TOKENOMICS

Token	# Token	% Token
Presale	40 Million	40%
Pancake	9 Million	9%
DEX	9 Million	9%
CEX	15 Million	15%
Staking	15 Million	15%
Locked	12 Million	12%

Sell Tax- 5% (4% Marketing, 1% LP)

Buy Tax- 5% (4% Marketing, 1% LP)
